## Web Developer | MERN Stack

 mustafaaly27@gmail.com |  +92 304 2281289

 Portfolio: <https://mustafa-ali-portfolio.vercel.app/> | GitHub: <https://github.com/mustafaaly7>

### PROFESSIONAL SUMMARY

Final-year Computer Science student and MERN Stack Developer with hands-on experience building scalable, production-ready full-stack applications. Previously worked remotely with TechSpark on maintaining and improving a live production product. Skilled in React.js, Next.js, Node.js, Express.js, and MongoDB, with a strong focus on performance, user experience, and modern web standards.

### RELEVANT EXPERIENCE

#### MERN Stack Intern

Saylani Tech

Jul 2025 – October 2025

- Built MVP backends for new product launches and optimized APIs for performance.
- Developed Saylani's OMR backend system and designed interactive landing pages.
- Collaborated with cross-functional teams, leading features from planning to deployment.

#### Junior Full Stack Developer (MERN)

Tech Spark

Oct 2025 – Feb 2026

- Maintained and enhanced a live production product, resolving critical bugs and improving system stability.
- Implemented new features and functionality in an existing codebase, ensuring backward compatibility and clean releases.
- Worked on production-level deployments, handling real-world edge cases, hotfixes, and updates.

### PROJECTS

#### E-Book Store Application | <https://mern-e-commerce-frontend-murex.vercel.app>

- Developed a bookstore with MERN stack, supporting authentication, role-based dashboards, add to favourite & cart management.
- Implemented email notifications and secure user management.

#### Chat App | <https://chatty-black-omega.vercel.app>

- Created a fully responsive chat application with real-time messaging using Socket.IO.
- Added user profile management and 32 customizable themes for UI personalization
