PROFESSIONAL SUMMARY

Final-year Computer Science student and **MERN Stack Developer** with hands-on experience in building scalable, full-stack applications. Skilled in React.js, Next.js, Node.js, Express.js, and MongoDB. Currently interning at Saylani Tech, where I contribute to backend systems and production-ready applications. Strong problem-solver focused on performance, user experience, and modern web standards.

RELEVANT EXPERIENCE

Saylani Tech   Jul 2025 – Present

MERN Stack Intern

- Developed responsive web applications using MongoDB, Express.js, React.js, and Node.js.
- Built MVP backends for new product launches and optimized APIs for performance.
- Developed Saylani's OMR backend system and designed interactive landing pages.
- Collaborated with cross-functional teams, leading features from planning to deployment.

PROJECTS

E-Commerce Application | https://ecommerce-demo-self.vercel.app

- Built a full-stack e-commerce platform using MERN stack.
- Integrated JWT authentication and role-based UI for users and admins.
- Designed a dynamic cart system with real-time updates.

E-Book Store Application | https://mern-ecommerce-frontend-murex.vercel.app

- Developed a bookstore with MERN stack, supporting authentication, role-based dashboards, add to favourite & cart management.
- Implemented email notifications and secure user management.

Chat App | https://chatty-black-omega.vercel.app

- Created a fully responsive chat application with real-time messaging using Socket.IO.
- Added user profile management and 32 customizable themes for UI personalization

---
